---

## DEVELOPMENT PROJECTS

### [The Good Life Tracker](#)

Aug 2018–Present

A retirement tracker app that allows users to target the amount they need for retirement and track or adjust their savings to meet that goal. Built with React, Node, Express, and Mongo

### [The Fintech Guru Expense Tracker](#)

July 2018–Aug 2018

A simple expense tracker that gives users the ability to track, manage, and target their monthly expenses over the course of a full year. Built with JS, Bootstrap, Node, Express, and Mongo

### [The Movie Machine](#)

Mar 2018 – June 2018

Provides a list of recommended titles based on a user's favorite film. Each result displays cast, rating, and plot information, along with MovieClips from YouTube, and links to places to stream or purchase online. Built with JS, HTML, CSS, and Rest APIs

---

## PROFESSIONAL EXPERIENCE

### Kabbage, Inc

Financial Analyst

Atlanta, GA

Nov 2015–Dec 2016

- Rebuilt company liquidity model tracking daily loan originations, cash levels, credit facility balances, and waterfall disbursements for forecasting of immediate and future liquidity needs
- Implemented Axiom EPM solution from the ground up, utilizing data from multiple channels for companywide GL reporting, budgeting, and forecasting
- Applied VBA to automate month end financial reporting reviewed by CEO, CFO, and Executive Team

### State Bank & Trust Company

Management Reporting Analyst – Banking Officer

Atlanta, GA

Feb 2012–Nov 2015

- Revamped bank's entire organizational, production, and cost center architecture to improve expense tracking, streamline reporting, and provide more granular insight on the profitability contributions of each line of business
- Engineered 2013 - 2016 budget models tracking over \$1.5B in loans, \$2B in deposits, \$150mm in revenue, and \$100mm in expenses down to each cost/production center
- Acted as primary report generator, dashboard creator, database manager, and administrator for bank's GL and FP&A reporting software, Axiom EPM
- Developed quarterly rolling forecast models capable of on the fly scenario analysis
- Took initiative to learn VBA for Excel to automate reporting for all team members

---

## EDUCATION

### Thinkful

Full Stack Flex Program

Oct 2018

- Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithms & data structures
- Created and deployed mobile-first applications while learning new languages and frameworks by collaborating several hours every week with a senior web developer

### Georgia State University – Robinson College of Business

Master of Finance

Dec 2011

### University of Virginia

Bachelor of Arts in English Language and Literature

June 2005
